

## **EVANS MILLS SPEEDWAY ANNOUNCES TRACK INEX FUEL RULE**

April 28, 2017

EVANS MILLS, NY - The Evans Mills Speedway office announced today that the track will be instituting a track fuel rule for Legends and Bandoleros competing at the speedway for the 2017 season. Sunoco 91 octane fuel will be available from Can-Am Enterprises at the track, and only fuel purchased at the speedway will be legal for competition.

The announcement was made in compliance with INEX's recent recommendation for tracks to impose their own fuel rules.

The fuel will be available beginning this Sunday, April 30, and the fuel rule will be enforced beginning Memorial Day weekend, at the track's scheduled May 28th event.

More information about Evans Mills Speedway, including a complete 2017 season schedule, can be obtained online at [www.evansmillsspeedway.com](http://www.evansmillsspeedway.com), or by calling (315) 221-9180.
